

CURRICULUM

Giovanna Nappo

- born in Viterbo (Italy) April 8, 1957
- home address: via Angelo Poliziano 71- 00184 ROME - ITALY
- office address: piazzale A. Moro 2, 00185 ROME (ITALY)
- office telephone number: 06 49913262
- fax: 06 44701007
- email: nappo@mat.uniroma1.it

POSITION:

Associate Professor in Probability and Mathematical Statistics at
Department of Mathematics - University of Rome "La Sapienza"
[since 1-11-1992]

PREVIOUS POSITION:

Ricercatore in Probability at Department of Mathematics -
University of Rome "La Sapienza" [16-04-1984 — 31-10-1992]

RESEARCH FIELDS

The main research interest concerns Approximation Problems in different fields: Nonlinear Filtering, Stochastic control, non parametric Bayesian Statistics, Point processes, Interacting particle systems, Markov Processes. Other interests concern Point processes, Stochastic delay differential equations, Risk modelling. Lately the research has focused on some mathematical aspects of financial applications.

VISITED SCIENTIFIC INSTITUTIONS (at least one month)

- **INRIA, École Normale Supérieure , Paris, France**
(September 2003) Prof. F. Baccelli and Prof. P. Brémaud
- **University of Wisconsin, Madison, USA** Prof. T. G. Kurtz
(July 1999)
- **University of Heidelberg, Germany** Prof. H. Rost (October
1987 - May 1988)
- **Science Academy, Moscow, URSS** Prof. Ya. G. Sinai
(September 1987)
- **BiBoS, Bielefeld, Germany** (Bielefeld Bochum Stochastics) Prof.
S. Albeverio (January 1985)
- **Ruhr University, Bochum, Germany** Prof. S. Albeverio
(February - April 1984)

ORGANIZATION OF CONFERENCES

- *International Symposium "Bruno de Finetti Centenary Conference"*
November 15-17, 2006 - Roma, Università "La Sapienza" e
Accademia dei Lincei.
- Workshop *Stochastic Methods in Mathematical Finance*, dedicated
to the memory of Bruno Bassan September 15/17, 2005 - Roma,
Università "La Sapienza".
- Workshop *Stochastic Processes, Stochastic Calculus and Applications*
September 19/20 2002 - Roma, Università "La Sapienza".
- Workshop *Nonlinear Filtering: Uniqueness and Approximation*
Techniques for Solutions of Filtering Equations January 14/15
1999 - L'Aquila, Università dell'Aquila.

PhD STUDENTS

PhD in Mathematics:

G. L. Torrisi (presently at IAC-CNR, Roma)

Rate of convergence to stationarity of nonlinear Hawkes processes
(2001)

with Prof. P. Brémaud (Paris CNRS, France)

PhD in Mathematical Statistics:

B. Torti (presently at Dept. Math- Univ. Tor Vergata, Roma)

*Diffusive approximations for queueing network models: results
and conjectures about the filter convergence* (2002)

with Prof. A. Gerardi (Università dell'Aquila, Italia)

TEACHING (last years)

Master in Scientific Calculus

Mathematical Finance (A.A. 2004/05, and 2005/06)

PhD in Mathematics

Probabilistic Methods for Partial Differential Equations
(A.A. 2007/08)

Functional Methods in Asymptotical Statistics
(A.A. 2003/04)(with M. Piccioni and Y. Rinott)

Probability and martingales (A.A. 2001/02)

Bachelor degree in Mathematics

Probabilistic Methods in Finance
(A.A. 2001/02 — 2007/08)

Probability (A.A. 2001/02 — 2004/05)

Stochastic processes (A.A. 2004/05, and 2006/07)

Papers published in International Journals
